

Fence Varnish 110

Weatherproof, open-pore wood varnish for all kinds of external woodwork.

Application range:

Weatherproof, breathable coating for all exterior wood.

Technical qualities:

Water repellent, weatherproof impregnation for wood outdoors, permanently elastic, easy to apply, high yield, water vapour permeable.

Colour:

Brown transparent. Mixable with LEINOS Wood Varnish 260 for exterior use.

Full declaration:

Linseed oil, wood oil-castor oil-stand oil, wood oil-safflower oil-natural resin-ester, tall oil-fatty acid-ester, linseed oil-wood oil-stand oil, isoparaffins, alumina, kaolin, micro wax, mineral pigments, zinc carbonate, drying agents. Fence Varnish contains max 450 g/l VOC. EU limit value for this product (cat. f): 700 g/l (2010)

Application:

Stir well before use. The product is ready for use. The surface must be dry, clean and free of dust and grease. Apply by brush, roller or spraying device at temperatures above 15°C. Lower temperatures will delay the drying process. Always do a test coat.

Drying time:

At 20°C and 50 - 55% relative humidity: first coat drying time is 16 - 24 hours. Ensure good light and ventilation conditions during use and drying times.

Container sizes and coverage:

Approx. 60 - 80 ml/m², depending upon the condition and absorbency of the surface. Apply sparingly to avoid delay of drying process.

Sizes	Coverage...*
2,5l	36 m ²

* Coverage per coat

Storage:

Under cool and dry conditions. Close lid tightly when not in use. Shelf-life of unopened container 5 years.

Disposal:

According to locally regulated laws. European Waste Catalogue (EWC) 08 01 11

Cleaning:

Clean equipments immediately after use with LEINOS Thinner 200. The product is ready for use.

Hazard statements:

Harmful to aquatic life with long lasting effects. Repeated exposure may cause skin dryness or cracking. Safety data sheet available on request.

Precautionary statements:

Keep out of reach of children. IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. Do NOT induce vomiting. Avoid release to the environment.

Dispose of contents/container according to local regulations.

Always be sure to store cleaning cloth, polishing pads, sponges, etc. that are still wet or even slightly moist with product in

an airtight metal container or in water and dispose, as there is a danger of spontaneous combustion caused by the plant oil content in the product.

The product alone will not undergo spontaneous combustion.

A typical smell may arise due to the natural raw materials.

During sanding wear mask against respirable dust.

To achieve optimum results, please refer to the Technical Data Sheets of all products used. The information is based on our current knowledge and experience. However, they do not constitute a guarantee of product properties and do not establish a contractual legal relationship. With the publication of this Technical Data Sheet, all previous information becomes invalid.
