

Woodworm Free 130

Wood solidifying agent, water-based, protects the wood against mould and insect infestation by physical-mechanical reactions.

Also suitable for porous wood.

Application range:

Preventive breathable wood solidifier, protects the wood against mould and insect infestation by physical-mechanical reactions, also for wood work within roofed exterior areas and woodwork used in damp and humid rooms.

Technical qualities:

Preventive against mould and insect infestation, water vapour permeable. Also suitable for the restoration (solidification) of old wood. Very effective in disguising wood-work against woodworm and insects etc.

Colour:

Colourless, slightly yellow.

Full declaration:

Water, aluminium oxide, silicic acid, potassium palmitate, magnesium oxide, potassium chloride, fatty acids. This product contains max. 1 g/l VOC. EU limit value for this product (cat. a): 30 g/l (2010)

Application:

Applied by brush or spraying: approx. 100 ml/m² per coat. At least two coats necessary! Applied by dipping: Approx. 15 litre/m³. The ambient and surface temperature must be higher than +15°C.

Drying time:

At 20°C and 50% relative humidity: Subsequent treatment after approx. 24 hours, when the wood is completely dried.

Container sizes and coverage:

Application by brush or spray: approx. 100 ml/m² per coat. At least two coats are necessary! Dipping respectively steeping: approx. 15 l/m³.

Sizes	Coverage...*
1l	10 m ²
2,5l	25 m ²
10l	100 m ²
20l	200 m ²

* Coverage per coat

Storage:

Under cool and dry conditions, prevent from freezing. Shelf life of unopened containers nearly 5 years.

Disposal:

According to locally regulated laws. European Waste Catalogue (EWC) 08 01 20.

Precautionary statements:

Safety data sheet available on request.

Keep out of reach of children.
Avoid release to the environment.
Dispose of contents/container according to local regulations.
